Product datasheet for AP01359PU-N

hnRNP K (HNRNPK) Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	Western Blot: 1/500-1/1000.
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Specificity:	hnRNP K antibody detects endogenous levels of hnRNP K protein. (region surrounding Tyr280)
Formulation:	Phosphate buffered saline (PBS) with 15 mM sodium azide, approx. pH 7.2. State: Aff - Purified State: Liquid purified Ig fraction
Concentration:	1.0 mg/ml
Purification:	Affinity chromatography
Conjugation:	Unconjugated
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	~ 56 kDa
Gene Name:	heterogeneous nuclear ribonucleoprotein K
Database Link:	<u>Entrez Gene 3190 Human</u> <u>P61978</u>

GRIGENE hnRNP K (HNRNPK) Rabbit Polyclonal Antibody – AP01359PU-N

Background:Heterogeneous nuclear ribonucleoproteins (hnRNPs) constitute a set of polypeptides that
contribute to mRNA transcription, pre-mRNA processing as well as mature mRNA transport
to the cytoplasm and translation. They also bind heterogeneous nuclear RNA (hnRNA), which
are the transcripts produced by RNA polymerase II. There are approximately 20 known
hnRNP proteins, which range in size from 34 kDa to 120 kDa, and their complexes are the
major constituents of the spliceosome. The majority of hnRNP proteins components are
localized to the nucleus; however some shuttle between the nucleus and the cytoplasm, such
as hnRNP K. hnRNP K, a 65 kDa protein, recruits a variety of molecular partners through two
K homologous (KH) domains, which are required for protein-protein interactions. hnRNP K
also contains several potential phosphorylation sites, including Ser 302, the major site of
PKCd phosphorylation, which are thought to regulate various cellular functions, including
sequence-specific DNA binding, transcription, RNA binding and nucleocytoplasmic shuttling.

Synonyms:

HNRPK, Heterogeneous nuclear ribonucleoprotein K, TUNP
