Product datasheet for CF803093

RIP3 (RIPK3) Mouse Monoclonal Antibody [Clone ID: OTI2B10]

Product data:

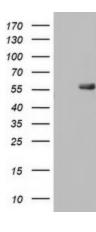

Product Type:	Primary Antibodies
Clone Name:	OTI2B10
Applications:	IHC, WB
Recommended Dilution:	WB 1:200 -1:2000, IHC 1:150
Reactivity:	Human
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Immunogen:	Human recombinant protein fragment corresponding to amino acids 233-518 of human RIPK3 (NP_006862) produced in E.coli.
Formulation:	Lyophilized powder (original buffer 1X PBS, pH 7.3, 8% trehalose)
Reconstitution Method:	For reconstitution, we recommend adding 100uL distilled water to a final antibody concentration of about 1 mg/mL. To use this carrier-free antibody for conjugation experiment, we strongly recommend performing another round of desalting process. (OriGene recommends Zeba Spin Desalting Columns, 7KMWCO from Thermo Scientific)
Purification:	Purified from mouse ascites fluids or tissue culture supernatant by affinity chromatography (protein A/G)
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	56.7 kDa
Gene Name:	receptor interacting serine/threonine kinase 3
Database Link:	<u>NP_006862</u> <u>Entrez Gene 11035 Human</u> <u>Q9Y572</u>

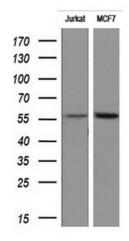

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2024 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

	RIP3 (RIPK3) Mouse Monoclonal Antibody [Clone ID: OTI2B10] – CF803093
Background:	The product of this gene is a member of the receptor-interacting protein (RIP) family of serine/threonine protein kinases, and contains a C-terminal domain unique from other RIP family members. The encoded protein is predominantly localized to the cytoplasm, and can undergo nucleocytoplasmic shuttling dependent on novel nuclear localization and export signals. It is a component of the tumor necrosis factor (TNF) receptor-I signaling complex, and can induce apoptosis and weakly activate the NF-kappaB transcription factor. [provided by RefSeq, Jul 2008]
Synonyms:	RIP3
Protein Families:	Druggable Genome, Protein Kinase
Protein Pathway	s: Cytosolic DNA-sensing pathway

Product images:

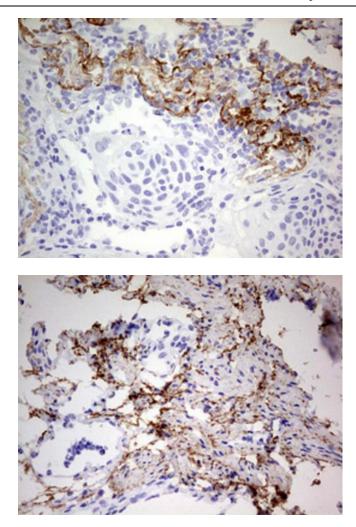

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY RIPK3 ([RC209549], Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-RIPK3.

Western blot analysis of extracts (10ug) from 2 different cell lines by using anti-RIPK3 monoclonal antibody at 1:200.
