

Product datasheet for **PP501P**

Normal Rabbit IgG

Product data:

Product Type:	Primary Antibodies
Recommended Dilution:	Normal Rabbit IgG should be used in Immunoassays at the same concentration as the specific Rabbit polyclonal antibody. It is recommended that a range of dilutions be utilized in preliminary experiments to determine optimal concentration.
Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Formulation:	PBS State: Purified State: Lyophilized (sterile filtered) purified IgG fraction
Reconstitution Method:	Restore in sterile water to a concentration 1.0 mg/ml. Centrifuge vial prior to opening!
Concentration:	1.0 mg/ml (after reconstitution)
Conjugation:	Unconjugated
Storage:	Store lyophilized at 2-8°C for 6 months or at -20°C long term. After reconstitution store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C long term. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.
