

Product datasheet for PR100001

pRMT-Luc, Promoter-less Firefly Luciferase Reporter Vector

Product data:

Product Type:	Reporter Vectors
E. coli Selection:	Ampicillin
Features:	<ul style="list-style-type: none"> • Versatile MCS for promoter sequence cloning • Low background • Neo selection marker
Reporter Gene:	Firefly Luciferase

Schematic of the multiple cloning sites:

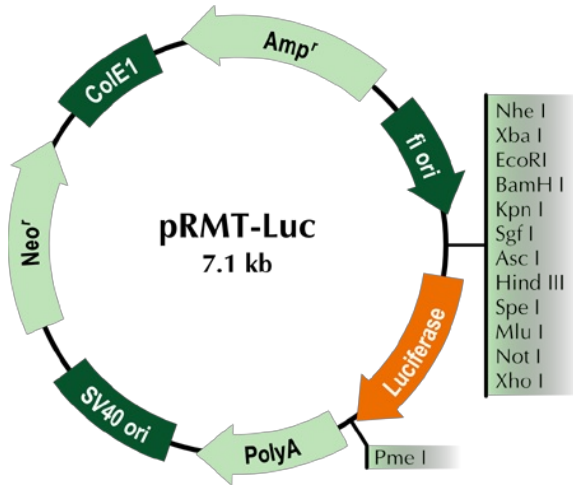

Storage: Store the vector DNA at -20°C.

Stability: Vector DNA is stable for at least one year from date of receipt when stored at -20°C.
