

Product datasheet for PR100002

pRMT-tGFP, Promoter-less GFP Reporter Vector

Product data:

- Product Type:** Reporter Vectors
- E. coli Selection:** Ampicillin (100 ug/mL)
- Features:**
- Versatile MCS for promoter sequence cloning
 - Low background
 - Neo selection marker
- Reporter Gene:** tGFP

Schematic of the multiple cloning sites:

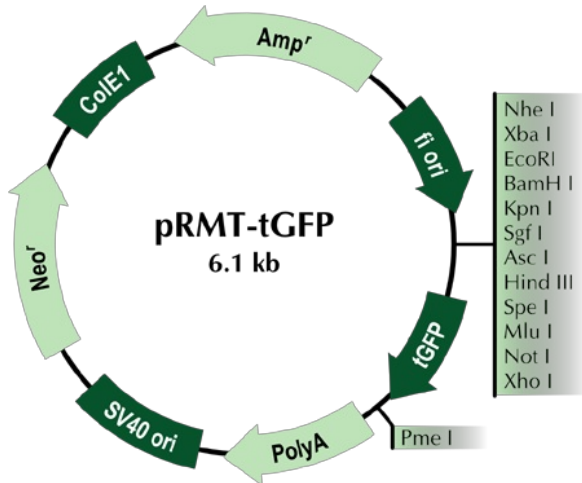

- Storage:** Store the vector DNA at -20°C.
- Stability:** Vector DNA is stable for at least one year from date of receipt when stored at -20°C.
