| Product Type:                            | CytoSections  |
|--|---|
| Description:                             | Transient overexpression of LDHAL6A (NM_001144071), transcript variant 2, in HEK293T cells,<br>paraffin embedded controls for ICC/IHC staining  |
| Species:                                 | Human   |
| Expression Host:                         | HEK293T   |
| Expression cDNA Clone<br>or AA Sequence: | TrueORF Clone RC227150  |
| Tag:                                     | C-MYC/DDK   |
| Detection Antibodies:                    | DDK Rabbit monoclonal antibody, recognizing both N- and C-terminal tags (TA592569)  |
| ACCN:                                    | <u>NM 001144071, NP 001137543</u>   |
| Synonyms:                                | LDH6A   |
| Storage:                                 | Room Temperature, or 2-8°C for long term storage  |
| Stability:                               | Blocks are guaranteed for a year from the date of receipt if proper storage instructions were followed.   |
| Preparation:                             | HEK293T cells were transiently transfected with TrueORF cDNA plasmid. Transfected cells were cultured for 48hrs. After harvesting, the cultured cells were fixed in formalin & dehydrated before embedding in paraffin. |
| Note:                                    | This product is for research use only and is not approved for use in humans or in clinical diagnosis.   |
| RefSeq:                                  | <u>NP 001137543</u>   |
| Locus ID:                                | 160287  |
| Cytogenetics:                            | 11p15.1   |
| Protein Pathways:                        | Cysteine and methionine metabolism, Glycolysis / Gluconeogenesis, Metabolic pathways,<br>Propanoate metabolism, Pyruvate metabolism   |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
