## Product datasheet for TP724599

## Cd86 Mouse Recombinant Protein

## **Product data:**

Product Type:	Recombinant Proteins
Description:	Recombinant Mouse CD86
Species:	Mouse
Expression cDNA Clone or AA Sequence:	Val24-Lys244
Tag:	C-His
Buffer:	Lyophilized from a 0.2 um filtered solution of PBS, pH7.4
Note:	Recombinant Mouse T-lymphocyte Activation Antigen CD86 is produced by our Mammalian expression system and the target gene encoding Val24-Lys244 is expressed with a 6His tag at the C-terminus.
Stability:	12 months from date of despatch
Locus ID:	12524
UniProt ID:	<u>P42082</u>
Summary:	T-lymphocyte activation antigen CD86 (B7-2) is a type I membrane protein that belongs to the B7 family. CD86 is highly expressed on activated antigen presenting cells. CD86 plays an essential role for T-lymphocyte proliferation and interleukin-2 production through binding CD28 or CTLA-4. It is also involved in the early events of T-cell activation and costimulation of naive T-cells, such as deciding between immunity and anergy that is made by T-cells within 24 hours after activation. Additionally, the CD86 participates innate immune responses by activating NF-?B-signaling pathway in macrophages. CD86 thus is predicted to be a promising candidate for immune therapy.

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
